

## Honey, I'm a Vampire

M: Darling, there's something I need to tell you. You have **the right to know** before we get married!

W: What is it? Are you alright? You know you can tell me anything.

M: Honey... I'm... I'm a vampire.

W: Ha! OK, I don't believe you. I'm NOT **falling for** that.

M: But I'm telling the truth! I know it's hard, but you have to believe me!

W: Yeah, OK! (sarcastically) Then, how can you go out in the sun?

M: **SPF 100**. You know I have **sensitive skin**.

W: Then, how can you eat garlic, huh? Wouldn't that kill you?

M: Nah, that's just a **myth**! You know I LOVE Italian.

W: Hey, if I **drove a stake** through your heart, would you die?

M: I would **get severely injured**. We're NOT **immortal**, you know. We just age slower. So, please don't try that.

W: Right, right... I STILL don't believe you... Oh, I know. **Prove** it to me: Turn into a bat!

M: Now THAT I CAN do. See?

W: What? Oh my god! I believe you! I believe you! You ARE a vampire!... Does that mean you drink blood? You kill people and **suck** on their necks?? You're a monster!

M: Hey wait!! That's not true! Actually, I'm a vegetarian! I don't drink blood, I drink coconut water.

W: Coconut water?

M: Yeah, coconut is close to the liquid in red blood cells. It's not perfect, but I can **keep** my thirst **under control**. Did you know coconut water can be used as **emergency replacements** for fluids?

W: Stop **changing the subject**! So, you're saying humans aren't **appetizing** to you?

M: Well... you sure look **yummy**! (Written by Minao Capper)
